

ARTICLE II

Section 1. Legislative power.

The legislative power of the State shall be vested in the General Assembly, which shall consist of a Senate and a House of Representatives.

Sec. 2. Number of Senators

The Senate shall be composed of 50 Senators, biennially chosen by ballot.

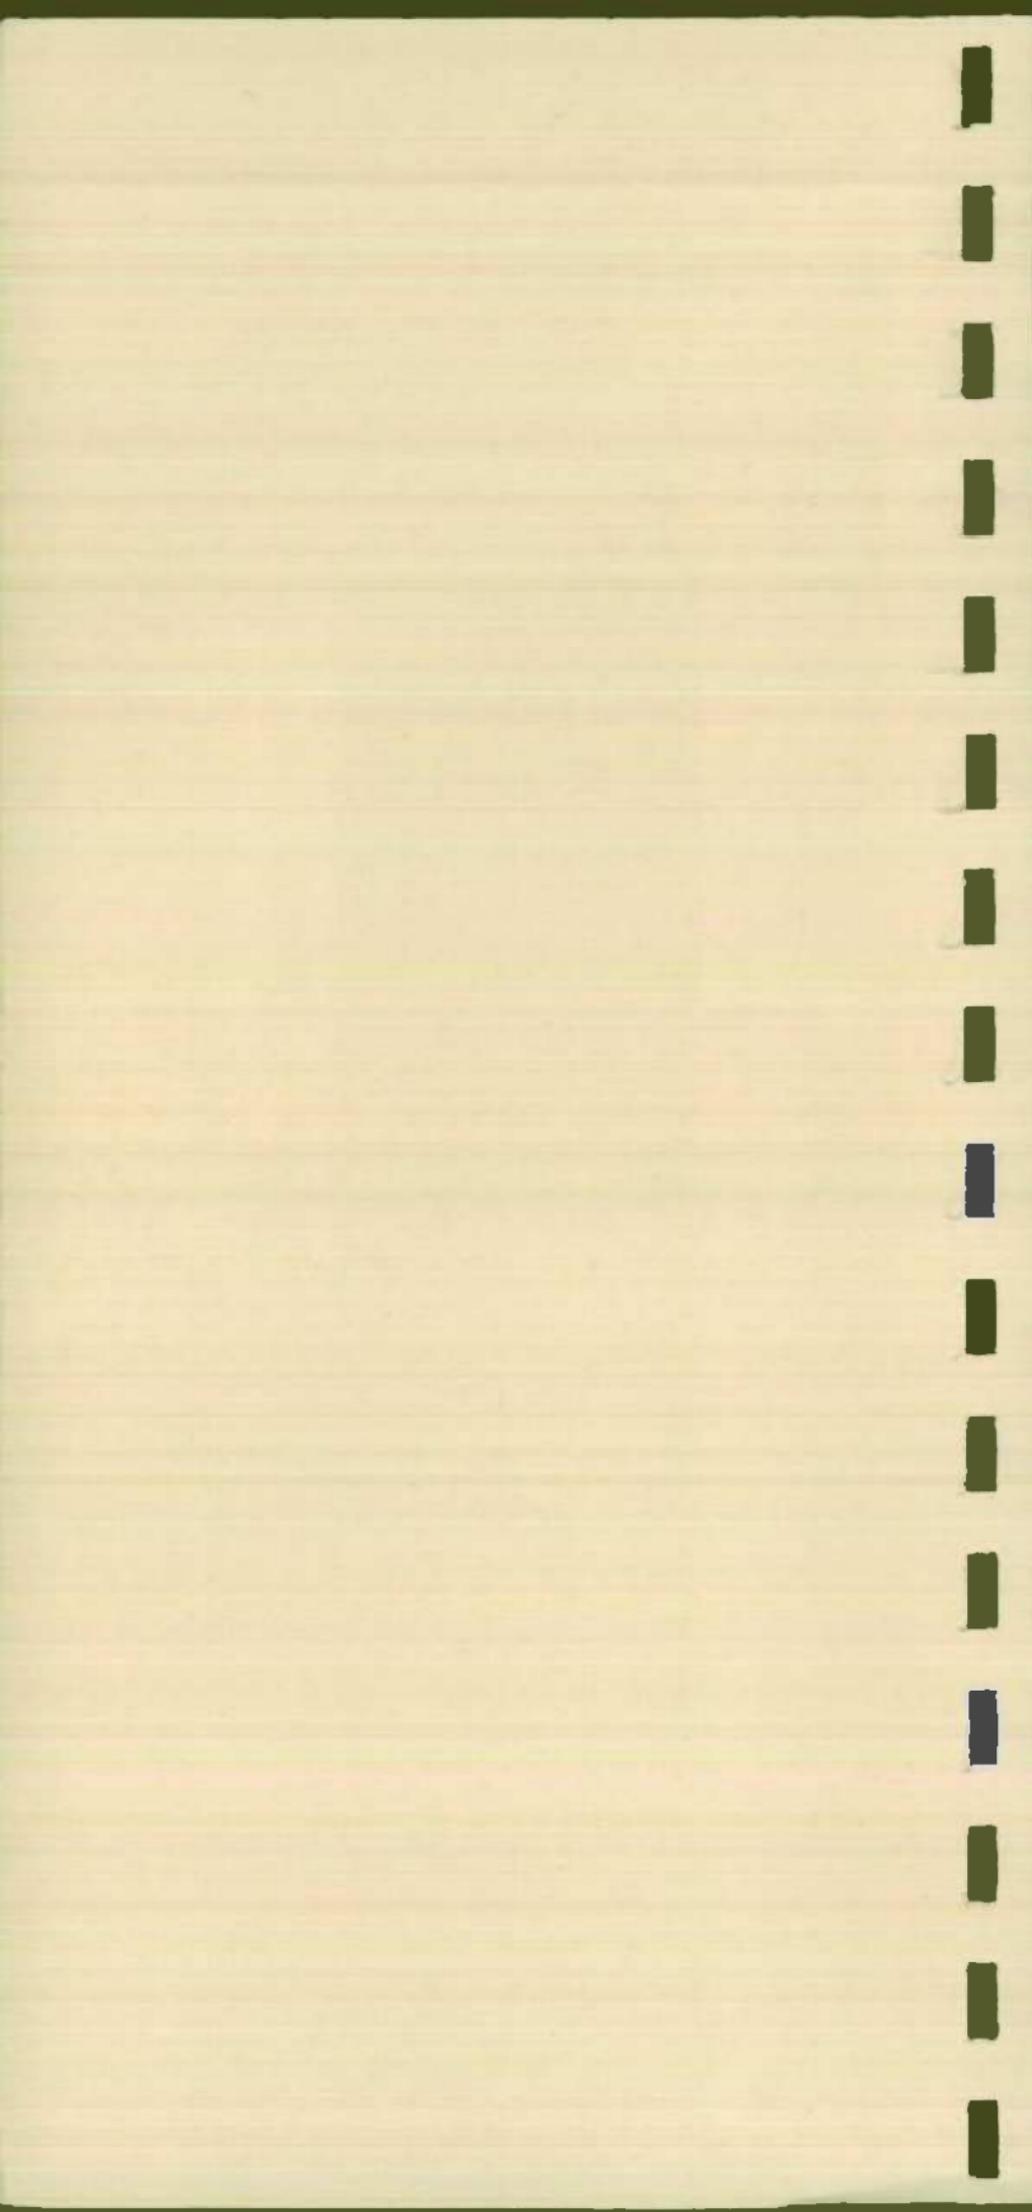

Sec. 4. Number of Representatives

The House of Representatives shall be composed of 120 Representatives, biennially chosen by ballot.

Sec. 24 (4) General Laws

The General Assembly may enact general laws regulating the matters set out in this Section.

A Guide to the N.C. Legislature

The N. C. Center for Public Policy Research, Inc. is a non-profit, non-partisan research institution committed to the independent scrutiny of our state government and its performance. We feel that the government of North Carolina can be made more responsive. Won't you join us in our efforts?

**ARTICLE II: A GUIDE TO THE
NORTH CAROLINA LEGISLATURE**

**THE NORTH CAROLINA CENTER
FOR PUBLIC POLICY RESEARCH**

Acknowledgments

Many people participated to the collection and presentation of the information which appears in this book. We are indebted to a number of state librarians and state employees who cooperated with us in gathering background material about members of the General Assembly; and we are indeed grateful to those legislators, lobbyists, and newsmen who responded to questionnaires distributed by the Center in connection with this project.

The publication of this book has been a joint effort of the Center staff, but several members deserve special recognition. Production chores fell most heavily on Sallye Branch and Shelia Hartsfield, and both worked tirelessly to see the project completed.

The design, layout, and printing of *Article II* was handled by Mary Margaret Wade, and we were fortunate to have both her talents and her imagination in the planning and preparation of this publication.

Invaluable research assistance came from Ann Tickamyer, a graduate student at the University of North Carolina in Chapel Hill, who collected much of the campaign data which is recorded here. Steve Lerner, also a graduate student at UNC, aided in the organization of material pertaining to bills introduced during the 1977 session of the legislature.

Sincere thanks are due to these people and to others, including former members of the Center's staff, who contributed in numerous ways to the production of *Article II: A Guide to the North Carolina Legislature*.

To the reader:

An informed electorate is the essence of democratic government, but more than a general understanding of important issues is required if government is to serve the public's interests. Informed citizens must also know something about the men and women elected to serve them as legislators. It is to acquaint the people of North Carolina with their state senators and representatives that this book has been prepared.

Article II: A Guide to the North Carolina Legislature is an attempt to provide a concise yet comprehensive impression of each current member of the North Carolina General Assembly. Every incumbent senator and representative who served in the 1977 session has been individually profiled in a manner which will quickly tell the reader:

- Who the legislator is, and how he or she can be reached;
- What he or she has done educationally and occupationally;
- How he or she got to the legislature;
- What committees he or she serves on;
- What kinds of bills he or she introduced in 1977; and,
- How he or she voted on a range of issues of wide state interest during the past session.

In addition, incumbents in the General Assembly who served in the 1977 session have been rated according to the results of a survey of the "effectiveness" of each senator and representative conducted by the Center in March, 1978. At that time, 160 incumbent legislators, 288 registered lobbyists, and 39 experienced state reporters were asked to rate on a scale of 1 to 10 the "effectiveness" of the individual members of each chamber. Respondents were also asked to indicate, in order of priority, the ten most "influential" legislators and the ten most "powerful" committees in the General Assembly.

The purpose of the survey was to identify, in a general way, those North Carolina legislators who make the most significant contributions to the General Assembly by their participation in committee work, their skill at guiding bills through floor debate, their general knowledge and their expertise in special fields, the respect they command from peers, the enthusiasm with which they execute various legislative responsibilities, the political power they hold (either by virtue of office, longevity, or personal attributes), their ability to sway the opinions of their fellow legislators, and their aptitude for the overall legislative process. Respondents were asked to use these criteria, as well as their own knowledge of the General Assembly and their personal perceptions of those who serve there, in replying to the Center's questionnaire.

Each legislator's individual profile includes a symbol reflecting his or her "effectiveness" rating based solely on the results of this survey. A single symbol indicates that the

legislator's overall score placed him or her in the lowest quarter of the appropriate chamber. Two symbols indicate a score in the second quarter. Three symbols indicate a score in the third quarter. Four symbols indicate a score in the top quarter. Democrats have received symbolic donkeys; Republicans have received symbolic elephants. An exact statistical tabulation of the survey results, broken down by respondent groups, appears in the Appendix.

All of this information has been organized so that it can be readily understood and interpreted, and so that the legislative activities of various incumbents can be easily compared. Some information about new members of the General Assembly appointed to fill vacancies which occurred after the 1977 session has also been included. Sources used in the preparation of Article II: (1) The North Carolina Manual and (2) North Carolina Government 1585-1974, both prepared by the office of the Secretary of State; (3) the 1977 North Carolina General Assembly Senate and House Rules-Directory; (4) the 1977 State Legislative Building Telephone Directory prepared by the Legislative Services Office; (5) Southern Bell Telephone Company's Legislative Directory 1977-1978; (6) the Southern Regional Council's North Carolina Legislators: For The Record 1976; (7) the annual Statement of Economic Interest each legislator is required by law to file; (8) the various campaign finance reports required from each candidate for legislative office during and after primaries and the general election; (9) the various financial reports required by law from political action committees (PACs); (10) the Daily Bulletin and associated publications of the Institute of Government of the University of North Carolina; (11) the Senate Journal and the House Journal for the 1977 session; (12) official roll call votes tabulated by the North Carolina legislature; and (13) the 1970 North Carolina Census. Some legislators were contacted personally to confirm or amplify specific background details.

No interpretations have been insinuated and no conclusions have been drawn by the Center in the accumulation and presentation of this material. Campaign information has been taken directly from various reports filed by the legislators and their contributors. Representative bills (always public bills unless fewer than four were introduced) have been selected to indicate the range of an individual's interests, without regard to final action taken on the proposed legislation. Every effort has been made to verify sources and to rectify apparent discrepancies. We publish this book solely for the purpose of making information about state legislators more accessible, and thus more meaningful, to the people of North Carolina.

How to use this book

General Use

Profiles of the members of the North Carolina General Assembly are ordered alphabetically within the sections designated Senate and House of Representatives. Each profile is arranged systematically, and includes specific information under various self-explanatory headings. The legislator's party, district, office number, seat number, and telephone number are listed below his or her name. Terms served in the chamber of which the legislator is a member are noted to the right, with any terms served in the other chamber listed in parentheses. The legislator's symbolic "effectiveness" rating appears immediately above his or her previous terms. Additional information explaining portions of the profile data is detailed below under headings keyed to the profiles themselves.

--If you desire information about a particular legislator, simply turn to the page on which his or her profile is placed in alphabetical sequence.

--If you desire information about legislators representing a particular Senate or House district, use the index by district which appears in each section and then locate the legislator profiles according to alphabetical sequence.

--If you desire information about legislators who represent various regions of the state, use the map which appears at the beginning of each section to determine which districts are in that region. Use the index by district to identify the legislators representing those districts, and then locate each legislator's profile in alphabetical sequence.

Statistical results of the Center's legislative survey appear in the Appendix. It contains the names of each legislator, arranged alphabetically by chamber, followed by the tabulated results of the survey broken down according to responses received from legislators, lobbyists, and newsmen. The overall "effectiveness" score, on which the symbolic rating of each legislator is based, was derived by averaging the results of responses received in a manner which gave equal weight to each respondent group. The overall rating appears in bold type. The names of the 10 "most influential" legislators and the 10 "most powerful" committees in the General Assembly, as determined by the survey, also appear in the Appendix.

1976 Campaign Information

The number of registered voters shown includes those of all parties in the legislator's district. The figure for total votes received reflects the results of the 1976 general election, in which voters of any party might have cast their ballots for the eventual winner. A "U" in parentheses following total votes received indicates the legislator was unopposed in the general election. Campaign contributions and expenditures shown are aggregate amounts reported by the legislator during the primaries and the general election. Listed immediately below campaign contributions and expenditures are the aggregate contributions reported to have been given to the legislator by political action committees (special interest groups) during the same period.

Selected Bills Introduced (1977)

The number and either the abbreviated title or a short description of four representative bills introduced by the legislator during 1977 appear in this section. Bills listed are public bills unless the legislator introduced fewer than four, in which case local bills are also listed. "Action" indicated is the final disposition of the bill during the 1977 session. (Note: Under the adjournment resolution passed at the end of the 1977 session, pending House bills referred to Senate committees and pending Senate bills referred to House committees may receive further consideration in 1978.) A key for interpreting the "Action" column appears below:

R	Ratified
F	Failed
PPS	Postponed Indefinitely by the Senate
PPH	Postponed Indefinitely by the House
RCS	Referred to Committee by the Senate
RCH	Referred to Committee by the House
RUS	Reported Unfavorably to the Senate
RUH	Reported Unfavorably to the House
CSA	Committee Substitute Adopted
A	Adopted (Resolution)
T	Tabled

Where He/She Stands . . .

Seven of the bills which generated statewide attention during 1977 are listed on each legislator's profile, along with an indication of the final substantive vote on the measure in the appropriate chamber and the final substantive vote cast by the legislator himself:

--HB 0043, ratifying the Equal Rights Amendment, passed the House but failed by a narrow margin in the Senate.

--HB 0005 was the toughest of several death penalty bills introduced in the General Assembly after the U.S. Supreme Court declared the state's former capital punishment law unconstitutional.

--SB 0293, two-term succession for the Governor and Lt. Governor, had broad support in both chambers and portends basic changes in political life in the state.

--HB 0205, in a final form which evolved after extensive amendment of the original bill, provides for standardized annual testing of students in several grade levels of primary and secondary school.

--HB 1325 provides that first offense convictions for possession of small amounts of marijuana will no longer be punishable with jail sentences.

--SB 0530, a bill aimed at easing pressure on the state's overcrowded prisons, requires judges to confine prisoners with sentences of six months or less in available local jails rather than in a state facility.

--HB 0658, a basic change in the law governing insurance rate-setting procedures, allows insurance companies to file and implement certain rates without first securing approval either from the Insurance Commissioner or the courts.

Appendix

Tabulated results of the Center's legislative survey appear on the following pages. Senators, Representatives, lobbyists, and capital correspondents were asked to rate the "effectiveness" of each member of the General Assembly except new appointees. (Senators were not asked to rate Representatives, nor were Representatives asked to rate Senators.) In addition, respondents were asked to indicate in order of priority their selections for the 10 "most influential" members of either chamber and the five "most powerful" committees in each chamber. A total of 487 questionnaires were sent. Four were undeliverable; 165 responses were received:

Media	16 of 39	(41%)
Lobbyists	68 of 284	(24%)
Senators	25 of 48	(52%)
Representatives	56 of 112	(50%)
Total	165 of 483	(34%)
