NORTH CAROLINA
State Board of Education
Department of Public Instruction

Report to the North Carolina General Assembly

Low-Performing Districts and Schools, Improvement Planning and Statewide Support

G.S. 115C-12(25)

NC DEPARTMENT OF PUBLIC INSTRUCTION
Catherine Truitt, State Superintendent :: 301 N. Wilmington Street :: Raleigh, North Carolina 27601-2825

In compliance with federal law, the NC Department of Public Instruction administers all state-operated educational programs, employment activities and admissions without discrimination because of race, religion, national or ethnic origin, color, age, military service, disability, or gender, except where exemption is appropriate and allowed by law.

Inquiries or complaints regarding discrimination issues should be directed to:
Thomas Tomberlin, Senior Director, Educator Preparation, Licensure, and Performance, NCDPI
6301 Mail Service Center, Raleigh, NC 27699-6301 / Phone: (984) 236-2114 / Fax: (984) 236-2099

TABLE OF CONTENTS

Committee on Low-Performing Districts and Schools, Improvement Planning, and Statewide Support

EXECUTIVE SUMMARY

G. S. §115C-12(25) requires the State Board of Education to submit a report to the Joint Legislative Education Oversight Committee (JLEOC) annually regarding schools identified as low-performing, school improvement plans found to significantly improve student performance, personnel actions taken in low-performing schools, and recommendations for additional legislation to improve student performance and increase local flexibility.

This report contains information regarding the implementation of G. S. §115C-105.37. Identification of low-performing schools; G. S. §115C-105.37B. Reform of continually low performing schools; G. S. §115C-105.39A. Identification of low-performing local school administrative units; and G. S. §115C-105.39. Dismissal or removal of personnel; appointment of interim superintendent. Specifically, the report provides a summary of the steps and processes developed and implemented by the North Carolina Department of Public Instruction to support those districts and schools identified as low performing based on the 2023-2024 performance results, including discussion of resources available and timelines of requirements provided to districts and schools across the state with state low-performing designations. Additionally, the report contains analysis of the 2023-2024 accountability results pertaining to low-performing schools and districts along with analysis of submitted school and district improvement plans based on the review conducted by NCDPI staff.

INTRODUCTION AND LEGISLATIVE CONTEXT

The following section of this report provides a brief summary of legislation in connection with state low-performing school and low-performing district designations. Also included are the results of performance and growth data for low-performing districts and schools based on the analysis of School Performance Grades (SPG) from the 2023-2024 year as well as other information relevant to set the stage for the data and information to follow throughout the full report. Specifically, the following elements are included in this section to provide critical context for the full report:

-Summary of the legislation concerning low-performing districts and schools,
-Overview of the required timeline and process for 2024-2025 improvement plans other actions required upon receiving a low-performing designation,
-General information on NCDPI's execution of actions and timelines contained in law, and
-Analysis of the 2023-2024 accountability results pertaining to low-performing schools and districts.

LEGISLATION

In September 2015, Session Law 2015-241 House Bill 97, provided amended definitions for low-performing schools and a new designation for low-performing districts. Included in both the amended and new designations were specifically defined processes, procedures, and requirements for low-performing schools and districts. The following tables provide summary information regarding the requirements based on current legislation:

Table 1: September 2015 Statute for Low-Performing Schools and Local School Administrative Units

General Statute	Explanation
§ 115C-105.37. Identification of low-performing schools	Defines low-performing schools as those that receive a school performance grade of **D** or **F** _and_ a school growth score of "**met expected growth**" or "**not met expected growth**"
§ 115C-105.39A. Identification of low-performing local school administrative units	Defines a low-performing school administrative unit as a unit in which the **majority** of the schools in that unit that earned an overall school performance grade and school growth score identified as **low-performing schools**

Table 2: Low-Performing Legislative Requirements

Requirement According to Legislation	Explanation	Timeline/Deadline
Identification	State Board of Education identifies low-performing schools and low performing districts	Annually
Low-Performing Schools		
Principal Decision	Superintendent determines from 4 options employment of the principal of each low-performing school	Within 30 days of low-performing designation
School Plan for Improvement	A preliminary plan (with public input) for improving both the school performance grade and school growth score submitted to the local board	Within 30 days of low-performing designation
Written Notification to Parents	Written notice should contain school's performance grade and growth score earned, and plan for improvement	Within 30 days of low-performing designation
Local Board Approval	Local Board approves, modifies, or rejects preliminary plan	Within 30 days of receiving the plan
Submit plan to State Board	The plan is submitted to the State Board for recommendations	Within 5 days of local board approval
Feedback regarding the plan	The State Board reads and provides recommendations about the plan	Expeditiously
Consider feedback	Local board amends the plan as needed and submits final plan to the State Board	After local board final approval
Access to the final plan	The final plan is accessible through local school administrative unit website and the NC Department of Public Instruction's website	Upon final submission
Low-Performing Local School Administrative Unit		
Principal Decision	Superintendent determines from 4 options employment of the principal of each low-performing school	Within 30 days of low-performing designation
District Plan for Improvement	A preliminary plan (with public input) for improving each schools' performance grade and school growth score, monitoring each schools' progress, and administrative unit's possible policy changes is submitted to the local board	Within 30 days of low-performing designation
Written Notification to Parents	Written notice should be sent to parents of all students attending any school deemed low-performing in the local administrative unit. Notification should define low-performing local school administrative unit, percentage of schools identified, information about individual low-performing school, and plan for improvement	Within 30 days of low-performing designation

Local Board Approval	Local Board approves, modifies, or rejects preliminary plan	Within 30 days of receiving the plan
Submit plan to State Board	The plan is submitted to the State Board for Recommendations	Within 5 days of local board approval
Feedback regarding the plan	The State Board reads and provides recommendations about the plan	Expeditiously
Consider feedback	Local board amends the plan as needed and submits final plan to the State Board	After local board final approval
Access to the final plan	The final plan is accessible through local school administrative unit website and NC Department of Public Instruction's website	Upon final submission

IMPLEMENTATION OF LEGISLATION

The Department of Public Instruction provides a series of support services to guide districts and schools through the statutory requirements of a low performing school/district designation. Annually in September, the Department of Public Instruction provides informational webinars for both schools and districts about how to complete each of the requirements in the law, a visual timeline for completing all steps outlined in legislation, and regional trainings focusing on the platform used for submitting the comprehensive improvement plans. Districts/schools were given until December 4, 2023, to update/submit the 2023-2024 comprehensive improvement plan. After reminder emails and formal letters of noncompliance, 100% of schools and districts designated as Low Performing submitted an improvement plan via the NCStar platform

Figure 1: Timeline of Requirements for Schools and Districts

State Designation Timeline for Districts or Schools

Timeline Begins	First 30 days		Second 30 days	Submission
October 3 2024	November 2 2024		December 2 2024	December 7 2024
Superintendent Decision § 115C-105.39	Preliminary District Improvement Plan to Local Board § 115C-105.39A / Parental Notification Sample available	Public Access to Preliminary Plan and Opportunities for Written Feedback	Plan Approval by Local Board	Plan submission to SBE through NCStar

SUMMARY OF 2024 LOW-PERFORMING DESIGNATIONS BASED ON ACCOUNTABILITY RESULTS

Based on 2023-2024 school accountability data reporting, there are 735 schools with a state low-performing designation and 23 districts with a designation of low-performing district, this is a reduction from 804 schools and 25 districts with those designations in prior year. The State Board of Education received the preliminary list of 2023-2024 low-performing schools, traditional and charter; low-performing districts; and continually low-performing schools in their September 2024 meeting and will finalize those designations by action in their October 2024 meeting. The full list of schools and districts can be found in the Appendix section of this report.

Table 3: Summary of the 2023-24 State Designation of Low-Performing in Traditional Schools, Charter Schools and Districts by Region

Year	SBE Region	District	Traditional	Charter	Lab
2024	North Central	5	125	13	0
2024	Northeast	5	52	1	0
2024	Piedmont-Triad	4	145	9	2
2024	Sandhills	5	82	6	0
2024	Southeast	1	60	8	1
2024	Southwest	3	149	15	1
2024	Northwest	0	39	1	0
2024	Virtual	0	0	2	0
2024	Western	0	23	0	1

Table 4: Comparison Data for 2022-2023 to 2023-2024 of State Designations of Low Performing

	Schools 2023	Schools 2024	Leavers LP Status	Stayers LP Status	Enters LP Status	Change
All LP	804	735	253	551	184	-69
LP Traditional Public Schools	741	675	228	513	162	-66

735 Schools with State Low-Performing Designation 2023 (Traditional, Charter, and Lab)
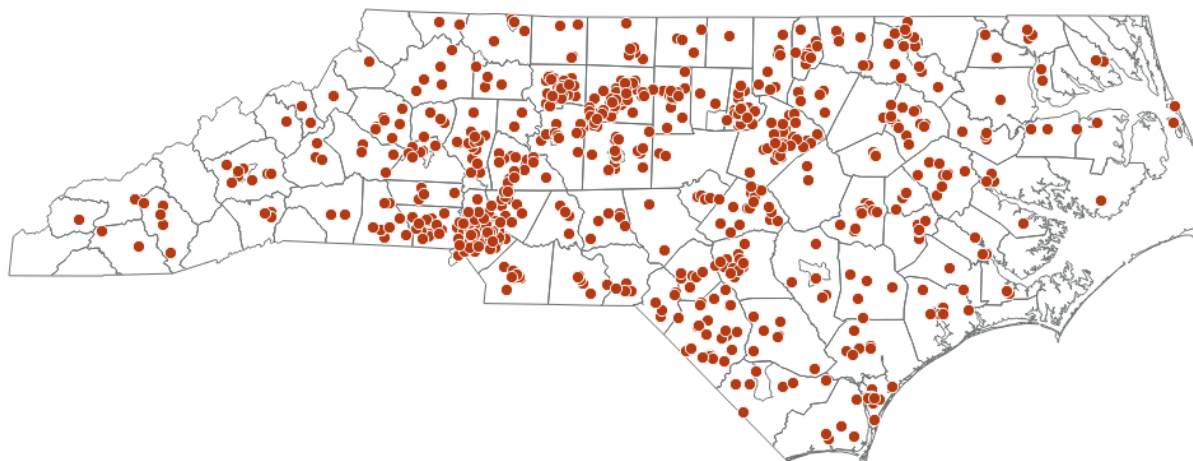

Percentage of Low-Performing Schools by LEA
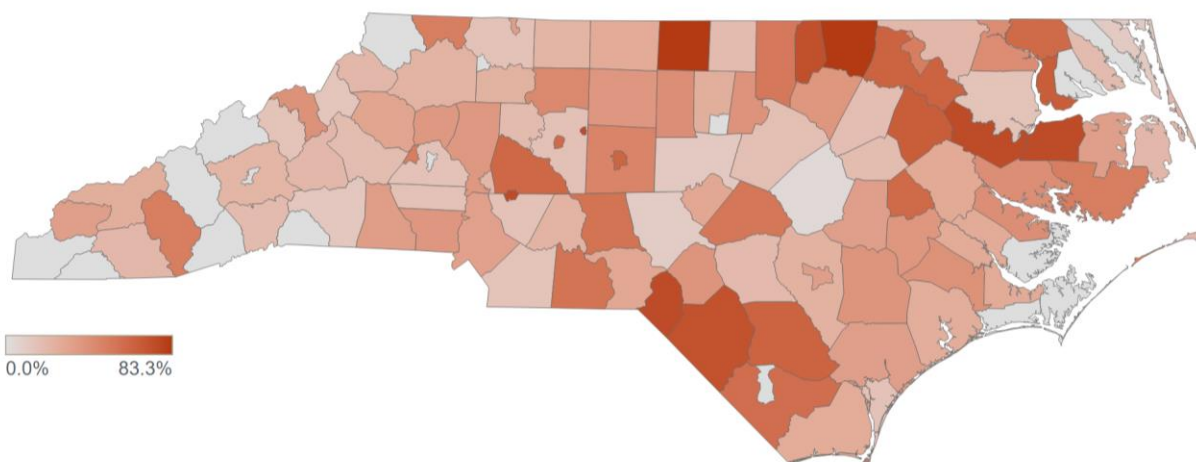

SUPPORT FOR LOW PERFORMING SCHOOLS AND DISTRICTS

OVERVIEW OF NORTH CAROLINA DEPARTMENT OF PUBLIC INSTRUCTION'S SUPPORT

The Department of Public Instruction provides a variety of support services to districts and schools designated as low performing. All schools and districts designated low performing receive feedback based on best practices related to school improvement planning. Additional services are provided to schools with a history of state low performing designations through the Office of School Improvement. The Office of School Improvement will support the schools and districts across the state with intentional coordination and collaboration with the Office of Regional Support Services and the Office of Federal Programs. All these organizational units will approach their work focused on supporting continuous school improvement aligned with the new North Carolina Framework for Continuous Improvement and Turnaround. This framework guides our agency's work as we meet schools where they are, regardless of their label or designation, and support them as they work to achieve greater academic gains for students.

Figure 3: NC Framework for Continuous Improvement and Turnaround
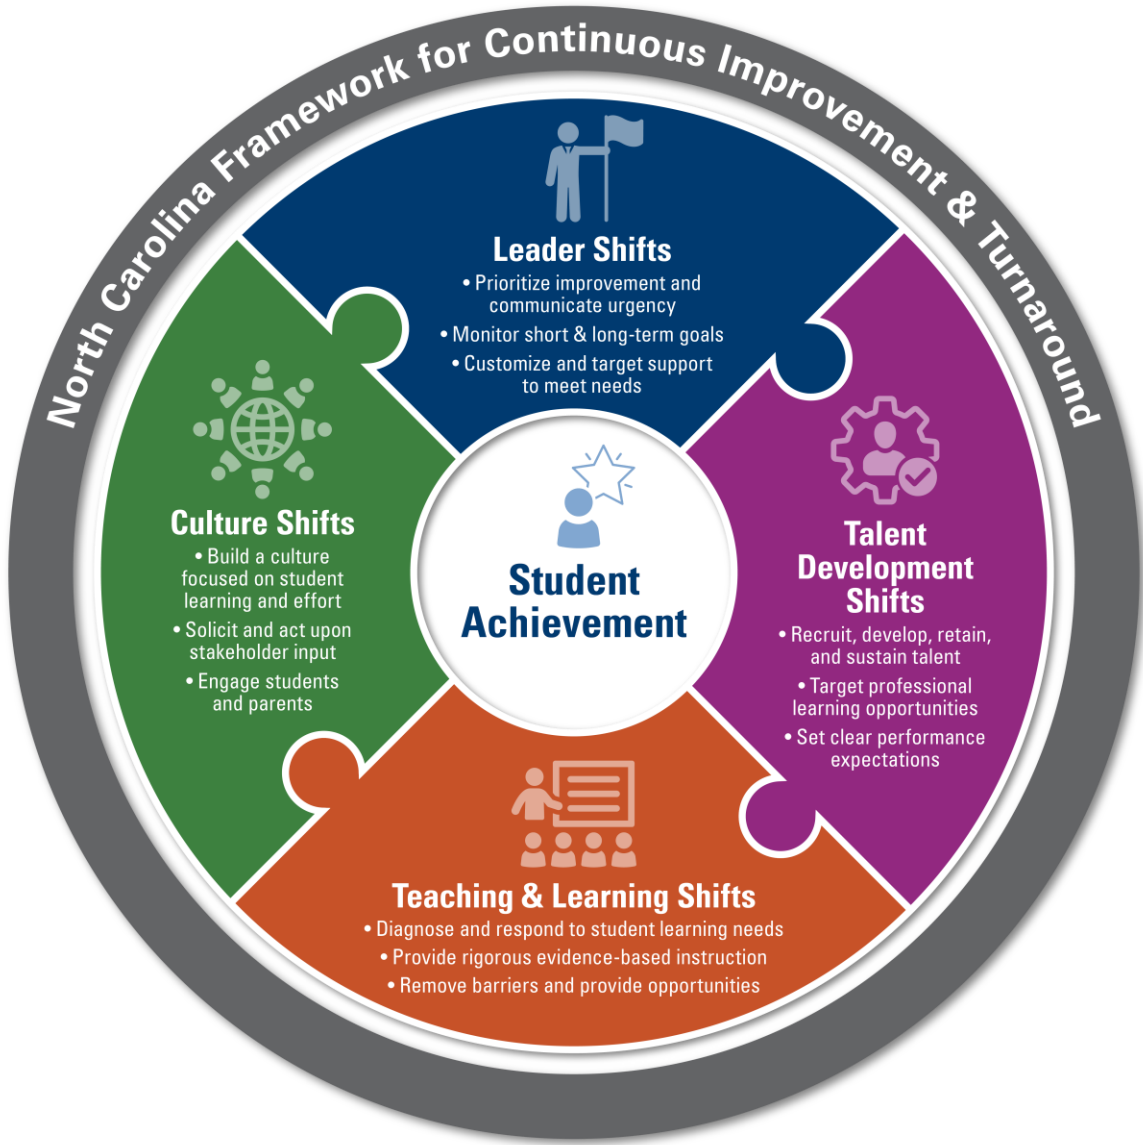

OFFICE OF SCHOOL IMPROVEMENT

In July 2024, the Office of District and Regional Support (DRS) was restructured to become the Office of School Improvement (OSI). OSI has a two-pronged approach: (1) Universal Support for School Improvement and (2) Transformation Support focused on low-performing schools. The school improvement group provides support for all schools and districts for continuous improvement while the transformation group provides customized, intensive support for low-performing schools and districts with the greatest needs. Universal support includes instructional leadership capacity building, school improvement planning support via NCStar, and needs assessment or diagnostic support. Transformation support includes curriculum support, reform model support (Restart), and turnaround leadership support addressing matters of governance and the removal of barriers to student success. The OSI also includes the Integrated Academic & Behavior Systems Team, who provides professional development and targeted support with MTSS implementation as well as differentiated support for schools designated as low-performing across 6 low-performing districts.

Diagnostic Services

Comprehensive Needs Assessments (CNA) and Follow-Through Support

The CNA process and subsequent follow through support is provided to low-performing schools and districts; this includes CSI schools and districts designated as low performing. The CNA process is designed to give schools real-time, evidenced-based, third party feedback in six dimensions (Teaching & Learning, Student Support, Leadership Capacity, Professional Capacity, Planning and Operations, and Family and Community Engagement). Schools receive a prioritized list of strengths and areas for improvement. This feedback is then directly linked to district or school improvement efforts through a series of research-based protocols. During the 2023-24 school year 71 CNA visits were conducted (69 schools visits and 2 district visits – a district visit consists of all schools in a district receiving a CNA and a culminating district office visit). In addition, 29 Targeted School Quality Reviews (TSQR) were conducted by the Diagnostic Services team – these visits are conducted for schools receiving Innovative Partnership (School Improvement) Grants. These grants are typically awarded to low performing schools. In total, for the 2023-24 school year, Diagnostic Services conducted 101 visits and produced 101 subsequent reports to support improvement planning in these schools and districts. Most schools that participated in a CNA also received a two-day unpacking training with their school improvement teams to support use of the report in planning around NCStar indicators using research-based protocols. Other follow-up support included a virtual session with each school's leadership team the week after the CNA site visit referred to as a Virtual Bridge Session (VBS) to jump start use of CNA feedback. Every school was then scheduled for a check in to occur quarterly following this session. The purpose of the check-in being to support ongoing use of the CNA feedback in school improvement efforts.

Diagnostic Services: Transition and a New Approach

With executive leadership changes and a revamped approach for school improvement support, the CNA process and structure was transitioned in July 2024 to a new model of support aimed at maximizing efficiency of limited agency staff while also focusing on extending the impact and reach of the support provided to schools. The transition in the work of the Diagnostic Services team includes a shift to a universal support model as opposed to one that focuses exclusively on low-performing schools. Under their direction a one-year pilot is being launched in partnership with the SERVE Center at UNCG. The pilot aligns with the four domains, also referred to as Shifts, for improvement (Culture Shift, Leader Shift, Talent Development Shift, and Teaching and Learning Shift – a transition from six dimensions in the CNA rubric). The pilot is an online school self-assessment referred to as CALL – Comprehensive Assessment

of Leadership for Learning. The program provides quick results that can be used by school leaders in numerous ways and requires fewer NCDPI staff positions to operate. Currently, 19 schools and 2 districts have agreed to participate in the CALL Pilot. Of the 19 schools 11 have a low-performing designation. Both districts participating in the pilot have been designated as low performing. School staff will take the online self-assessment and a series of protocols will be used by the Diagnostic Services team with schools as a means of follow-up support. Feedback on the pilot will be collected by SERVE. The theory of action for this approach is that using CALL will enable the NCDPI Diagnostic Services team to provide ongoing support maximizing efficiency by not requiring participation of cross-agency personnel pulled off their primary support roles only offering short-term assistance or feedback. Also, CALL will allow for the Diagnostic Services team to prioritize their work with districts on responding to the data and implementation of research-based practices, without the load of data collection.

Beyond the pilot, as part of a shift to universal support, in July 2024 the Diagnostic Services Team redesigned the NCStar self-assessment to reflect the four domains/NC Shifts previously noted. The self-assessment includes an abbreviated version and an extended version the latter of which allows for more in-depth discussion of the school's current state and next steps for improvement. In this way, there are two tiers of support within the NCStar Self-Assessment. A Canvas Course has also been developed to support schools in effectively utilizing the self-assessment, with tools that support the use of research-based strategies that facilitate accurate self-assessment. The NCStar self-assessment and supporting tools are all self-directed. In addition to the Canvas Course, universal support is slated to include a Webinar that is designed to embed the NC Shifts across schools. Support will be provided for three tiers of support that increase in intensity as it relates to diagnostic services to inform school improvement.

School Reform Models: Support for Continually Low Performing Schools

Aligning with North Carolina's law for reform of low-performing schools (G.S. 115C-105.37B) the State Board of Education adopted a policy (DSTR-040) in May of 2016, allowing districts with continually low-performing schools an opportunity to apply for approval to implement components of several school reform model initiatives to include Transformation, Turnaround, Restart, and Closure. A summary of each reform initiative can be found in Table 4. Continually low-performing schools are those schools that have been low-performing for two of the previous three consecutive years. The list of continually low-performing schools can be found in the Appendix.

Table 6: School Reform Models

Transformation	In order to qualify for implementation of the transformation model, the LEA must demonstrate that a school has created a plan for developing and improving teacher and school leader effectiveness; for implementing comprehensive instructional reform strategies; for increasing learning time; for creating community-oriented schools; and for providing operational flexibility and sustain support. The LEA shall submit specific goals for academic 9 achievement and shall submit a budget showing the revenues and expenditures needed to reach the goals.
Turnaround	In order to qualify for implementation of the turnaround model, the LEA submits specific grounds supporting the implementation of this model; specifies the academic goals expected from implementation of this model; specifies the procedures to be utilized in removing staff, including procedures consistent with Due Process; describes with specificity the new governance structure and the budget to be implemented; sets forth specific academic achievement expected to be realized from use of this model.
Restart	In order to qualify for implementation of the restart model, the LEA submits a detailed plan outlining the goals to be achieved, including how to provide each student with the opportunity

	for a sound basic education; a statement as to how operating the school with the same exemptions from statutes and rules as a charter school authorized under N.C.G.S. 115C-218 et seq. will facilitate accomplishing these goals; how these exemptions will increase student achievement; whether the LEA will employ an educational management organization and, if so, the name and credentials of that organization and a budget setting out anticipated revenue and expenditures necessary to achieve the goal. A school operated under this subdivision remains under the control of the local board of education, and employees assigned to the school are employees of the local school administrative unit.
Closure	In order to qualify for implementation of the closure model, the LEA submits the specific grounds recommending closure of a particular school; the procedures it intends to follow in closing the school, including opportunities for public hearing; the procedures for ensuring a smooth transition for employee and students affected by the closure; how the resources realized from closure will continue to support student achievement, and the specific academic gains expected to be realized by the closure.

As of July 2024, twenty-seven school districts have been approved to implement a reform model, all of which selected the Restart Model. There are 174 schools across 9 cohorts implementing or preparing to implement the Restart Model. The first cohort began implementation of the Restart Model in the 2017-2018 school year and the most recent cohort will begin implementation in the 2025-2026 school year.

By December 1st of each year, All Reform Models are required by GS 115C-105.37B and State Board Policy DSTR-040 to submit an Annual Report documenting academic gains. After completing the first year of implementation of the approved Reform Model, schools submit the report after each year of implementation.

Restart Model schools are monitored for their progress in demonstrating Academic Gain. There are five criteria for Academic Gain including: Continually Low-Performing designation, School Growth Status, Achievement Score, Subgroup Growth Status, and school defined Flexibility Outcomes.

Yearly progress monitoring is conducted to inform the school if they are exceeding, meeting, or not meeting the expectations for Academic Gain, based on a comparison between the year before implementation and the most recent year of implementation. Progress monitoring is conducted after the submission of the annual report in December, and 2023-2024 data is approved by the SBE in October. Table 7 describes the Academic Gain status based on 2022-2023 data.

Table 7: Restart Model Summary of Academic Gain (based on 2022-2023 data)

Academic Gain	Number of Schools (n=148)
Exceeding Expectations	17% (25/148)
Meeting Expectations	57% (84/148)
Not Meeting Expectations	26% (39/148)

The *December 2023 Restart Annual Report* required reporting on the Restart flexibilities utilized in the 2022-2023 school year. Of the 148 Cohort 1-6 schools implementing the Restart Model and required to report, the following Table 8 represents a summary of the flexibilities reported as being employed in the Annual Report. Flexibilities are self-reported in the Annual Report.

Table 8: Restart Model Summary on Utilized Flexibilities During 2022-2023 (Based on December 2023 Annual Report)

Flexibility/Exemption from law	Percentage of Schools Utilizing Flexibility	Number of Schools Utilizing Flexibility
Budget	96%	142/148 Schools
Calendar	33%	49/148 Schools
Employment Requirement	47%	70/148 Schools
Standard Course of Study/Curriculum	6%	9/148 Schools
Assessment	9%	14/148 Schools
Class Size	5%	7/148 Schools

Preliminary data released to the SBE in September 2024 indicate the following changes based on 2023-2024 performance data in Figure 3 and Figure 4. Please note these tables represent schools continuing in Restart during the comparison years.

Figure 4 Restart Schools by Growth Status
Figure 5 Restart Schools by Low-Performing Designation
OFFICE OF REGIONAL SUPPORT SERVICES

The Regional Director team develops and aligns systems, processes and procedures to provide a unified system of statewide support to North Carolina Local School Administrative Units (LEAs). Other key duties include:

- Serving as the primary NCDPI contact for district senior leadership staff and providing regularly scheduled NCDPI updates, opportunities, and deadlines.
- Providing a communication loop to district staff, principals, and teachers about the knowledge and skills needed to facilitate policies, processes and practices focused on improving student achievement.
- Providing oversight, management, and supervision to align work processes with NCDPI and district staff.
- Leading cross-NCDPI Regional Support Teams, coordinating support and services provided in each region; and providing all internal and external communication regarding the team's work and support.
- Engaging in site visits, thought partner sessions, and strategic planning.
- Customizing support for districts.

Regional Support Teams (RST) are a product of the North Carolina State Board of Education's commissioned Ernst and Young efficiency study of the North Carolina Department of Public Instruction. The RST is composed of regionally based consultants from the following areas at NCDPI: Accountability, Career & Technical Education; Digital Teaching and Learning; Early Learning; Exceptional Children; Educator Preparation, Licensure & Performance; Federal Programs; Integrated Academic & Behavior Support. Under the direction of Regional Directors, RSTs provide an individualized and differentiated approach to district and regional support. Within the model there are three basic entry points that prompt support from the regional team:

- Low-performing designation (federal or state)
- District-initiated requests (i.e.: customized support)
- Regional support team-initiated offerings (based on regional needs)

Sample activities where the Office of Regional Support has customized support for low-performing schools and LEAs include:

- Priority partnerships in each region focused on those LEAs that request the most assistance and support with student performance.
- Intensive planning with LEA leadership to customize support from NCDPI to increase academic achievement.
- Professional learning on MTSS implementation.
- Customized district and school level framework development and professional development on increasing student engagement in secondary classrooms.
- Middle school leadership and instructional support.
- New principal transition and coaching support.
- Principal mentoring ESSER pilot project.
- Working with central office leaders on secondary high expectations and instructional rigor.

OFFICE OF FEDERAL PROGRAMS

The Office of Federal Programs ensures that federal and state education funds contribute to the goal of all students meeting or exceeding rigorous state standards. The office manages a large portfolio of federal grant funds while also monitoring and supporting schools and districts in their implementation of various improvement initiatives. An analysis of agency staffing assigned in direct support of school improvement initiatives results in the following breakdown of funds between federal funds (across all ESEA funding sources) and state appropriations (estimates based on budget as of September 18, 2024):

- Federal Funds Salary & Benefits: 24 FTE - $3,666,871.00
- State Appropriation Salary & Benefits: 8 FTE - $1,195,442
- *Total Investment in School Improvement Agency Personnel: 32 FTE - $ 4,862,313.00 (Federal Grants + State Appropriation)*

This investment in agency personnel represents those staff members who are focused on school improvement support, but those staff members are not necessarily exclusively assigned to providing support for state-designated low-performing schools or districts. Furthermore, there exists a great deal of complexity when considering the additional designations applied to schools across North Carolina as required by federal accountability reporting in addition to requirements contained in state law. Many schools with a low-performing state designation may also have a federal designation of CSI (Comprehensive Support and Improvement) or ATSI (Additional Targeted Support and Improvement), as well. This creates multiple layers of reporting and a significant number of required actions for school and district personnel when a state low-performing designation and associated requirements are in place in addition to a federal designation.

OTHER AGENCY SUPPORT INITIATIVES FOR LOW-PERFORMING SCHOOLS AND DISTRICTS

Office of Early Learning – Early Literacy Specialists

The Office of Early Learning has developed a tiered coaching model to support an aligned system, from the state to student. The model includes 115 Early Literacy Specialists (ELS) assigned to each NC school district. These positions are designed to collaborate first and foremost with district leaders who support literacy implementation across the local school system at least one or two days per week. They should be a consistent member of the district's local planning team to bridge communication, support and resources aligned to ongoing evidence-based literacy best practices developed and provided by the state. Additionally, each district must determine how the ELS information and resources will filter to every school in the district. This typically includes training of school leaders, coaches, advanced teaching roles and/or literacy champions. Furthermore, each ELS directly provides an additional layer of support within at least two or three local schools each week. The ELS collaborates with the school leadership team to identify goals and priorities at each of their assigned focus schools. This support includes PLC guidance, professional development, ongoing coaching cycles and modeling in classrooms as needed. Support is differentiated based on school data and specific needs.

The ELS coaching framework is unique to most coaching models with an intentional support that puts an emphasis on the overall larger system, funneling attention and support throughout the whole district, as well as an intentional, more narrow stream of support for specific schools based on needs and data. Unlike most practices of selecting only low-performing schools, which extends temporary focused support until scores improve, this model is two-fold, supporting the larger system as well as priority schools within the larger system. Many support models still tend only to focus on low-performing

schools, which tends to neglect any schools who are barely above the required benchmark. This results in one school coming out of improvement, while others fall into improvement. Support is then pulled from one school to the next or stretched thin. The coaching and support approach of the Office of Early Learning is designed not only to support schools who are struggling the most but also to be proactive in preventing problems by focusing on systems improvement.

Office of Charter Schools

The Office of Charter Schools (OCS) established a school improvement workflow in July of 2023 to elevate support for low-performing charter schools. OCS utilizes indicators of distress for early identification of struggling schools and collaborates across its office and within NCDPI to develop prevention strategies. Site visits occur pursuant to a site visit protocol and with standardized data forms and focus questions.

For schools identified as low- or continually low-performing, OCS uses an internal system of prioritizing risk to determine which schools will receive a site visit. During this visit, OCS consultants conduct classroom observations followed by a collaborative conversation with the school's leadership team. This allows time for reflection, suggested resources for support, and specific actions that may help the school achieve its academic goals. Finally, the school leader receives written feedback which includes academic data, areas of strength, and recommended areas for growth. Following site visits, OCS develops a follow-up protocol based on the observation which may include additional site visits, remote check-ins with leadership, or support for specific areas of growth.

ESSER-FUNDED INITIATIVES DESIGNED TO SUPPORT CONTINUALLY LOW-PERFORMING SCHOOLS AND DISTRICTS

CARES: An Intensive Intervention Coaching Pilot

The piloted CARES Transformation model was funded by ESSER funds (see table below) and comprises the state's most intensive support model for low-performing schools and districts. The model requires a formal partnership between the Department and a district to identify and remedy root cause(s) and develop highly focused incremental action steps with performance measures and clearly monitored plans for improved guidance. The pilot began in 2021 and is scheduled to sunset September 30, 2024.

Schools were targeted for CARES supports based on three criteria: a) continual low-performing status since 2015–16 designation; b) high poverty status (>70%, as defined in *WestEd report*), and c) proportion of students impacted within the district. Schools that met these criteria were invited to partner with NCDPI District and Regional Support (DRS) Team to receive CARES Transformation supports. The support encompasses consistent, tailored, multi-level coaching at the classroom, principal, curriculum, and district leadership level. The principal serving as an instructional leader is a key ideal in the CARES transformation model.

The CARES model was predicated on the state's Race to the Top initiative, Turning Around Low Achieving Schools (TALAS) that showed success improving high school graduation rates. Specific model enhancement included the addition of a district curriculum coach for focus on alignment with North Carolina Standard Course of Study, pairing of the instructional coach and school leadership coaching working within the same schools, maintaining a 6 to 1 school to coach ratio, and moving from subject matter instructional coaches to more pedagogical instructional coaches.

2021–22 ESSER Budget	**2022–23 ESSER Budget**	**2023–24 ESSER Budget**
- 4 District Leadership Coaches	- 5 District Leadership Coaches	- 6 District Leadership Coaches
- 14 School Leadership Coaches	- 14 School Leadership Coaches	- 14 School Leadership Coaches
- 0 Instructional Coaches	- 4 Instructional Coaches	- 11 Instructional Coaches
- Supported 81 schools in 24 districts	- Supported 102 schools in 24 districts	- Supporting 115 schools in 24 districts.
ESSER cost: approximately $3,000,000	**ESSER cost**: approximately $3,700,000	**ESSER cost**: approximately $4,800,000

Pilot Preliminary Outcomes

When the CARES Intensive Intervention work started in 2021-2022, coaches were deployed to support 81 schools and 24 districts. In 2022-2023, district leaders in the 24 districts requested that support be expanded to102 schools. In 2023-2024 support was extended to 115 schools. Six districts were targeted to receive the full range of support including district-level coaching. These six districts were: Anson County Schools, Nash County Public Schools, Northampton County Schools, Public Schools of Robeson County, Tyrrell County Schools, and Washington County Schools. In 2022-2023, both Tyrrell County Schools and Nash County Public Schools successfully exited low-performing district status. In 2023-2024, Tyrrell County Schools and Nash County Public Schools were joined by Northampton County Schools as districts no longer designated low performing. After three years of participation in the CARES intervention, 50% of the districts targeted were no longer low performing.

The figure below shows the change in growth status by percentage for schools participating in the CARES initiative. Schools that previously did not meet growth decreased from 47% in 2018-2019 (baseline, pre-COVID year) to 35% in 2023-2024 and schools that exceeded growth increased from 10% in 2018-2019 to 25% in 2023-2024. Schools that exceed growth are no longer considered low performing in the accountability model. It should be noted that schools were added to the program each school year starting with 81 schools in 2021-2022 growing to 115 schools by 2023-2024 and that different levels of service and intensity of support were provided to schools throughout the period of programming and intervention based on demonstrated need and other local, contextual factors.

Figure 6: CARES Schools by Growth Status
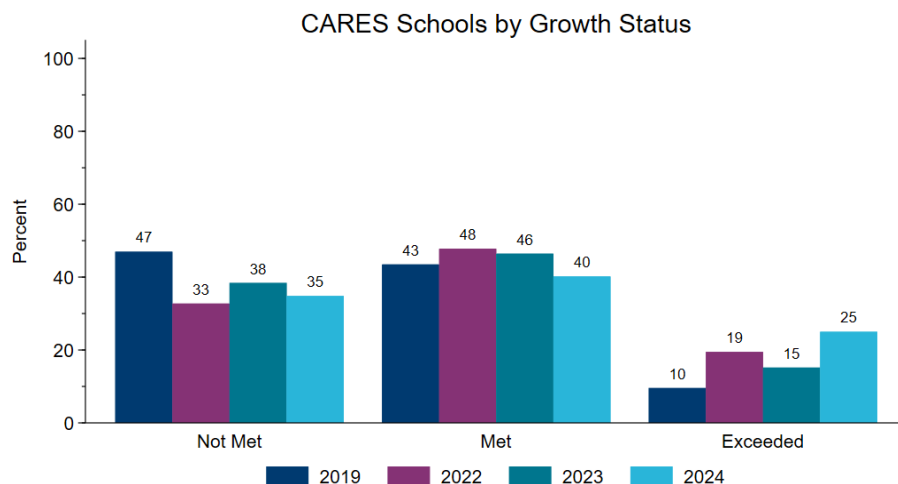

CARES Pilot Evaluation

In December 2021, the Education Policy Initiative at Carolina and North Carolina Central University were awarded a two-year grant by the NC Collaboratory with the aim of providing a deeper understanding of implementation activities, perceptions of efficacy, and school improvement impacts for these ESSER-funded supports, ultimately contributing to decision-making around how best to aid in recovery and accelerate learning for all students. The two-year study produced some key takeaways about the piloted intensive intervention model:

- The coaching focal areas perceived to have the greatest leverage in impacting student achievement included strengthening instructional leadership capacity of principals, developing knowledge and skills for data-driven instruction, and implementing a common curriculum aligned with state standards. All principal survey respondents said that CARES coaching in these areas moderately or greatly impacted student achievement.
- Perceptions of the NC Instructional Leadership Academy were highly positive as well. Over 90% of participants indicated they were satisfied with the sessions, offered high quality content and facilitation, and would help them to become a more effective leader.
- Superintendents, principals, and teachers shared concrete examples of ways coaching addressed core barriers to school improvement, and facilitated behaviors with an established evidence base for improving student outcomes (e.g. using data to differentiate instruction)

The NC Collaboratory research is ongoing, and additional analysis will be available by January 2025.

North Carolina Instructional Leadership Academy (NCILA)

Employing ESSER funding, the NCILA professional development series was offered to all low performing schools designated during the 2020-2021 year. It also served as an accompaniment to the piloted CARES intensive intervention with all principals and principal managers at CARES schools participating in the PD series. Approximately 1500 district and school leaders formed teams representing 406 schools from 60 districts and 13 charters engaged with NC ILA, attending a series of ten face-to-face professional development workshops built around evidence-based approaches to strengthening instructional leadership skills. Sessions focused on topics such as: Observation & Feedback; Leading an Equity Centered Student Culture; Deconstructing Standards; Data Meetings; and Planning Meetings. The curriculum is centered around developing instructional leadership skills framed within the evidence-based "Leverage Leadership" model (Bambrick-Santoyo, 2012 & Bambrick-Santoyo, 2018). The PD series spanned two years allowing participants to put best-practice methods into action immediately and return for follow-up support to deepen learning. The sessions concluded in May 2024. During exit surveys, 90% of participants agreed or strongly agreed that the content is of high-quality, and 90% of participants were satisfied or very satisfied with their Relay/NCILA experience.

Principal Mentoring Pilot, New Hanover County Schools

This ESSER-funded pilot was developed as part of the Regional Support Structure within the Office of Regional Support in response to a request from the Superintendent and senior leaders of New Hanover County Schools, who sought customized support for five elementary and middle schools identified as low-performing. With a total cost per mentor assignment of $14,000, including mentor stipend and travel expenses, the approach was viewed as a very cost-effective approach. The district's goal was to partner with NCDPI to provide peer mentor principals for the leaders of these schools. The mentor principals, who have successfully turned around low-performing schools, brought valuable, real-time insights to colleagues facing similar challenges. The initial outcomes of the pilot show some promise,

suggesting the approach may demonstrate efficiency and effectiveness in improving student achievement and retaining principals in low-performing schools warranting further study and exploration. This pilot is also being evaluated by the Education Policy Initiative at Carolina, and additional analysis will be available by January 2025.

Project Overview

- Mentoring principals received a monthly stipend and reimbursement for travel expenses, covering up to three school visits.
- Goal-setting meetings were conducted with district leaders and principal supervisors.
- Each mentor principal made an initial visit to their assigned low-performing school to familiarize themselves with the campus and meet their principal partner.
- Mentors had the opportunity to conduct two additional visits during the 12-month pilot.
- Weekly one-on-one virtual coaching sessions conducted between mentor and the principal.
- Mentors maintained regular contact with the principal's supervisor(s).
- Additional check-ins scheduled based on the partner principal's district assessment calendar.
- Oversight of the project included regular data collection and reviews with the Superintendent, the Chief Academic Officer, and the NCDPI Southeast Regional Director.

PLANNING FOR SCHOOL AND DISTRICT IMPROVEMENT

TRENDS AND PATTERNS FROM REVIEW OF SCHOOL AND DISTRICT PLANS

The Office of District & Regional Support and the Office of Charter Schools provided feedback to low-performing districts, schools, and charters within each region through NCStar. NCStar is a web-based platform that guides a district or school team in charting its improvement and managing the continuous improvement process.

The plans for improvement submitted by low-performing districts and schools focused on practices that would help achieve yearly goals and were submitted to the North Carolina Department of Public Instruction for feedback through NCStar. Many of the plans contained similar strategies for addressing the needs in low-performing schools, and the data summarized in Table 3 also suggests implications for ongoing professional development to continue to build the capacity of district and school personnel. Identifying these trends has been an integral aspect of developing and continuing effective practices of support for classroom, building level, and district level personnel.

In addition to the themes found in the table below, one common finding is the limited coaching statewide that is occurring from district to schools regarding school improvement. Many districts lack the human capital and resources to devote time to assist school administrators and/or school improvement teams.

Table 9: Common Themes in School Improvement Plans Reviewed

Areas for Growth
Plan is a compliance artifact that helps meet statutory requirements instead of a guiding, living document that drives improvement
Inconsistent School Improvement Team meetings and documentation of meeting minutes that demonstrate actions taken regarding the plan
Lack of understanding of a tiered-instructional model that contains interventions that help all students achieve success

Promising Improvements
Distribution of action steps and indicators in plans resulting in leadership capacity being built schoolwide and sustainability of transformative practices
Increased use of performance measures that help the school keep track of progress towards goals and allow for data-driven decisions to be made throughout the school year
Increased participation and membership of school improvement team members such that more voices are heard in decision-making process
Stronger evidence of vision and aligned action for school implementation of effective practices.

CASE STUDIES OF SCHOOL IMPROVEMENT PLANS FOUND TO SIGNIFICANTLY IMPROVE STUDENT PERFORMANCE

Local superintendents and NCDPI staff have been asked to report on school-level case studies that are responsive to this for the State Board to consider including in subsequent reporting. The State Board of Education may elect to add information to this report on school improvement plans by submitting an addendum to this report or a revised report in early 2025.

REPORTING ON PERSONNEL ACTIONS TAKEN IN LOW-PERFORMING SCHOOLS

§ 115C-105.39. Dismissal or removal of personnel; appointment of interim superintendent.

Superintendent's Action Concerning the School's Principal

"(a) Within 30 days of the initial identification of a school as low-performing by the State Board under G.S. 115C-105.37(a), the superintendent shall take one of the following actions concerning the school's principal: (i) recommend to the local board that the principal be retained in the same position, (ii) recommend to the local board that the principal be retained in the same position and a plan of remediation should be developed, (iii) recommend to the local board that the principal be transferred, or (iv) proceed under G.S. 115C-325.4 to dismiss or demote the principal."

Local School Administrative Unit	Total Number Designated Schools	(i) principal retained	(ii) principal retained, plan of remediation	(iii) principal transferred	(iv) dismiss or demote principal	N/A-Resigned/Retired/ School Closure

Note: The following districts were significantly impacted by Hurricane Helene and, as such, NCDPI did not request reporting from them as they focused on re-opening school for students and associated recovery efforts: Buncombe, Henderson, and Yancey.

Appointment of an Interim Superintendent

"(c) The State Board may appoint an interim superintendent in a local school administrative unit:
(1) Upon the identification of more than half the schools in that unit as low-performing under G.S. 115C-105.37; or
(2) Upon the recommendation from an assistance team assigned to a school located in that unit that has been identified as low-performing under G.S. 115C-105.37. This recommendation shall be based upon a finding that the superintendent has failed to cooperate with the assistance team or has otherwise hindered that school's ability to improve."

Currently, the State Board of Education has appointed interim superintendents serving in the following local school administrative units:

-Northampton County Schools
-Weldon City Schools

RECOMMENDATIONS FOR ADDITIONAL LEGISLATION TO IMPROVE STUDENT PERFORMANCE AND INCREASE LOCAL FLEXIBILITY

The State Board of Education may elect to submit recommendations for "additional legislation to improve student performance and increase local flexibility" by submitting an addendum to this report or a revised report in early 2025. Local superintendents and NCDPI staff have been asked to share recommendations for the State Board to consider including.

FLEXIBILITY PROVIDED BY NCDPI TO WESTERN NC DISTRICTS SIGNIFICANTLY IMPACTED BY HURRICANE HELENE

The North Carolina Department of Public Instruction intends to be of prompt service and high-quality support to all areas impacted by Hurricane Helene in North Carolina. It is our goal to alleviate the unprecedented hardship and pressure that school districts have experienced recently, to the extent possible.

Schools and districts designated as low performing are required to follow through on a series of steps related to school improvement planning and personnel actions pursuant G.S. §115C-105.37 [Identification of Low-performing schools], § 115C-105.39A [Identification of low-performing local school administrative units], § 115C-333 [Evaluation of licensed employees including certain superintendents; mandatory improvement plans; State board notification upon dismissal of employees], and §115C-105.39 [Dismissal or removal of personnel; appointment of interim superintendent]. We recognize a need to allow for timeline flexibility for the school districts that are most heavily impacted regarding these submissions due to the State Board of Education from September 2024 through January 2025. NCDPI's Office of School Improvement and Office of Regional Support Services will continue to work with our schools and districts as they navigate these most challenging times.

For reference, the Federal Disaster Declaration covers the following counties for North Carolina: Alexander, Alleghany, Ashe, Avery, Buncombe, Burke, Caldwell, Catawba, Clay, Cleveland, Gaston, Haywood, Henderson, Jackson, Lincoln, Macon, Madison, McDowell, Mitchell, Polk, Rutherford, Transylvania, Watauga, Wilkes, and Yancey Counties.

APPENDIX
FULL LISTING OF STATE LOW-PERFORMING DESIGNATIONS

2023–24 Low-Performing Schools List
A low-performing school has a School Performance Grade of 'D' or 'F', and a growth status of 'Met' or 'Not Met.'
Schools are sorted by public school unit code with charter schools at the end of the list.

District Name	School Code	School Name	State Board Region	Grade Span	School Performance Grade	EVAAS Growth Status
Alamance-Burlington Schools	010326	Eastlawn Elementary	Piedmont-Triad	PK-05	D	Met
Alamance-Burlington Schools	010346	B. Everett Jordan Elementary	Piedmont-Triad	0K-05	D	Met

2023–24 Low-Performing Districts

Low-performing districts are defined as districts that had greater than 50% of schools identified as low-performing. For the 2023-24 designations, there are 23 low-performing districts.

District Code	District Name	Number of Low-Performing Schools	Number of Schools with a School Performance Grade and Growth	Percent of Low-Performing Schools in District
930	Warren County Schools	5	6	83.3
170	Caswell County Schools	5	6	83.3
291	Lexington City Schools	3	5	60.0
940	Washington County Schools	3	4	75.0
830	Scotland County Schools	6	8	75.0
580	Martin County Schools	6	8	75.0
292	Thomasville City Schools	3	4	75.0
132	Kannapolis City Schools	6	8	75.0
910	Vance County Schools	11	15	73.3
780	Public Schools of Robeson County	26	36	72.2
330	Edgecombe County Public Schools	10	15	66.7
210	Edenton-Chowan Schools	2	3	66.7
420	Halifax County Schools	7	11	63.6
090	Bladen County Schools	7	11	63.6
761	Asheboro City Schools	5	8	62.5
800	Rowan-Salisbury Schools	19	31	61.3
400	Greene County Schools	3	5	60.0
370	Gates County Schools	3	5	60.0
240	Columbus County Schools	7	12	58.3
620	Montgomery County Schools	5	9	55.6
040	Anson County Schools	5	9	55.6
430	Harnett County Schools	14	26	53.8
390	Granville County Schools	8	15	53.3

2023–24 Continually Low-Performing Schools List

A continually low-performing school is identified as low-performing in any two of the last three years. The years used for this list are the 2021–22, 2022–23, and 2023–24 school years. A low-performing school has a school performance grade of 'D' or 'F', and a growth status of 'Met' or 'Not Met'. This list contains schools identified as continually low-performing that are within a local school administrative unit (district). Charter schools identified as continually low-performing schools are listed separately on a subsequent list.

District Name	School Code	School Name	State Board Region	Low Performing 2023–24	Low Performing 2022–23	Low Performing 2021–22

2023–24 Continually Low-Performing Charter Schools List

A continually low-performing charter school is identified as low-performing in any two of the last three years. The years used for this list are the 2021–22, 2022–23, and 2023–24 school years. A low-performing charter has a school performance grade of 'D' or 'F', and a growth status of 'Met' or 'Not Met'.
