[1] The denominator for calculating the required percentage is all students in membership at grade 3 for the first day of spring testing.

[2] The denominator is the number of students who did not demonstrate reading proficiency.

An * indicates that the student population number is too small to report the value. The percentage and number of students are not shown if the percentage is greater than 95 percent (>95) or less than 5 percent (<5).

[1] The alternate assessment for districts is STAR Reading. Restart schools have the flexibility to use a different alternate assessment (indicated above).

[2] State of North Carolina roll-up includes charter and lab schools.

An * indicates that the student population number is too small to report the value. An N/A indicates there is no data available for the district for that cell.

[1] The denominator for calculating the required percentage is all students in membership at grade 1 for the first day of spring testing.

[2] The denominator for calculating the required percentage is all students in membership at grade 2 for the first day of spring testing.

An * indicates that the student population number is too small to report the value. The percentage and number of students are not shown if the percentage is greater than 95 percent (>95) or less than 5 percent (<5).

An N/A indicates there is no data available for the district for that cell; testing 1st grade students is optional.
