Charter Schools Review Board  
ATTN: Julie Whetzel  
Office of Charter Schools  
NC Department of Public Instruction

Dear Charter Schools Review Board members,

Centerpoint Classical Academy is currently in the Ready to Open process, planning to open in Southeast Guilford County in August 2026. The schools approved initial projected enrollment is 316.

As Centerpoint prepares to open, a facility has been identified that is being pursued for an initial temporary facility. The plan is for this facility to be used until the permanent facility is purchased and ready for occupancy, which is anticipated in August 2027.

The temporary facility, while well suited to host a school, is not equipped to handle the school's initial ADM of over 300 students. Additionally, the recent struggles of new schools to meet their initial projected ADM has caused the board to reconsider and adjust the original opening plan.

For these reasons, the Centerpoint Classical Academy Board of Directors is requesting that the school's initial ADM be reduced to 148. The board believes this new projection to be achievable and prudent, allowing the school to successfully open in the selected temporary facility.

In the accompanying documents, changes were made to pages 6 and 106 of the application.

Following is an updated chart of Centerpoint's projected enrollment should this request be approved.
