NC Charter Schools Review Board renews NC Cyber Academy's charter through 2030-31 school year

On the afternoon of Monday, January 12, 2026, the North Carolina Charter Schools Review Board renewed the charter of the North Carolina Cyber Academy. NC Cyber's charter was renewed from the conclusion of the 2025-26 school year for an additional five years, through the conclusion of the 2030-2031 school year.

"The North Carolina Cyber Academy is pleased and grateful for the Charter School Review Board's vote to renew our charter for an additional five years," said NC Cyber Academy Superintendent Martez Hill. "We would like to thank the thousands of parents across the state of North Carolina who have entrusted us with the educational needs of their children, and we are ever mindful of the great responsibility we have to the citizens of this state."

The North Carolina Cyber Academy is currently working with more than 2,000 students from all over the state of North Carolina. Over the past decade, NC Cyber has supported the educational needs of North Carolina families in all 100 counties through our virtual curriculum.

"We are making progress as a school, and as we look to the future, we are going to continue to make progress. Over the past decade, more than 1,000 students have received high school diplomas from the North Carolina Cyber Academy, and we are looking forward to honoring more than 200 students again this coming May in our Class of 2026."

NC Cyber currently boasts the highest enrollment of students in Career and Technical Education (CTE) courses of any charter school in North Carolina, and has been recognized for its commitment to North Carolina's military community through the Purple Star program.

"The North Carolina Cyber Academy has the largest CTE (Career and Technical Education) program of any charter school - virtual or brick-and-mortar - in the entire state of North Carolina, and for the past several years we have been recognized as a Purple Star School for our commitment to assisting military families and their unique needs," said Mr. Hill. "Over the next five years, thanks to the Charter School Review Board's vote, we look forward to working with many more families and helping their children on to graduation and the next phase of their lives beyond school."
