

NORTH CAROLINA
State Board of Education
Department of Public Instruction

Report to the Joint Legislative Education Oversight Committee, Fiscal Research Division, and Joint Legislative Transportation Oversight Committee

Charter School Transportation Grant Program

SL 2021-180, sec. 7.69(b) (SB 105) amending § 115C-218.4s

Date Due: March 15, 2026
DPI Chronological Schedule, 2025-2026

STATE BOARD OF EDUCATION

STATE BOARD OF EDUCATION VISION

Every [public school](#) student in North Carolina will be empowered to accept academic challenges, prepared to pursue their chosen path after graduating high school, and encouraged to become lifelong learners with the capacity to engage in a [globally-collaborative](#) society.

STATE BOARD OF EDUCATION MISSION

The mission of the North Carolina State Board of Education and the North Carolina Superintendent of Public Instruction is to use their constitutional authority to guard and maintain the right to a public education for every student in North Carolina and to support public school units in providing every student an excellent education that prepares them for success in their next phase of life.

BACKGROUND

PERMANENT CHARTER SCHOOL TRANSPORTATION GRANT PROGRAM

Senate Bill 105, Session Law 2021-80, amended Article 14A of Chapter 115C of the General Statutes by adding a new section to read:

"§ 115C-218.42. Charter School Transportation Grant Program.

- (a) Purpose; Definition. – There is established the Charter School Transportation Grant Program (Program). The purpose of the Program shall be to award grant funds to a charter school that meets the requirements of subsection (b) of this section for the reimbursement of up to sixty-five percent (65%) of the eligible student transportation costs incurred by the school in accordance with the provisions of this section. For purposes of this section, the term "eligible student transportation costs" means costs incurred by the charter school for (i) transportation fuel, (ii) vehicle maintenance, (iii) contracted transportation services, and (iv) transportation personnel salaries.
- (b) Program Eligibility. – If a charter school has student enrollment in a semester of the school year of at least fifty percent (50%) of its students residing in households with an income level not in excess of the amount required for a student to qualify for the federal free or reduced-price lunch program, the charter school may apply to the Department for grant funds under the Program for reimbursement of up to sixty-five percent (65%) of the eligible student transportation costs incurred by the school for that semester.
- (c) Applications. – By August 1 of each year, the Department shall establish the criteria and guidelines for the grant application process for the upcoming school year, including any documentation required to be submitted with the application. Each school year, the Department shall accept applications until December 31 for eligible student transportation costs incurred during the fall semester of the school year and until May 15 for eligible student transportation costs incurred during the spring semester of the school year.
- (d) Award of Funds. – From funds made available for the Program, the Department shall award grant funds to the selected charter schools by February 15 for eligible student transportation costs incurred during the fall semester of the same school year and by June 15 for eligible student transportation costs incurred during the spring semester of the prior school year. The total amount of each grant awarded under the Program shall not exceed one hundred thousand dollars (\$100,000) per charter school per school year.
- (e) Reporting. – No later than March 15 of each year in which funds are awarded under the Program, the Department shall report to the Joint Legislative Education Oversight Committee, the Joint Legislative Transportation Oversight Committee, the Senate Appropriations/Base Budget Committee, the House Committee on Appropriations, and the Fiscal Research Division on the administration of the Program, including at least the following information: (1) The number of charter schools that received grant funds. (2) The amount of grant funds awarded to those charter schools. (3) Whether implementing the Program has led to an increase in charter schools offering lunch. (4) Whether implementing the Program has led to an increase in student lunch participation at charter schools offering lunch. (5) Whether implementing the Program has increased or expanded the offering of

student transportation by charter schools. (6) The modes of student transportation offered by charter schools that received grant funds."

This report fulfills the March 15th annual reporting requirement referenced above.

2026 AWARD CYCLE PROCESS

The 2025-2026 award cycle concluded on February 15, 2026, with the allotment of all funds designated for the Charter Schools Transportation Grant Program. The deadline to submit applications and eligible expense documentation was December 31, 2025. The timeline and instructions for schools were as follows:

Until December 31st

OCS shall accept applications for eligible student transportation costs incurred during the fall semester of the school year. Following the availability of the December 1st economically disadvantaged headcount data, OCS will confirm eligibility for each applicant.

By February 15th

OCS shall award grant funds to the selected charter schools for eligible student transportation costs incurred during the fall semester of the same school year.

- Up to 65% of the eligible student transportation costs incurred by the school.
- Eligible student transportation costs: (i) transportation fuel, (ii) vehicle maintenance, (iii) contracted transportation services, and (iv) transportation personnel salaries.

2026 AWARD IMPACT

A total of 74 eligible charter schools submitted applications and received awards. This is eleven more than the number of charter schools that applied and were eligible for the 2025 award. The amount of eligible expenses submitted increased to \$8.8 million compared to \$8.1 million for the 2025 award.

Eligible expenses per year

The amount of state funding budgeted for the 2026 Charter School Transportation Grant was \$2.5 million. A total of \$2,498,371 was distributed to the eligible schools in the second week of February 2026. Individual school award amounts are determined based on the statutory provision allowing 65% of eligible expenses to be reimbursed. Given the number of eligible schools (74) and amount of eligible expenses (over 8 million dollars), that percentage of eligible expenses was significantly reduced to meet the total funds available. For the 2026 award, schools received approximately 31% of eligible expenses. Because the state funding was fully expended following fall semester applications, there will be no spring semester application.

Charter school transportation funding has generated substantial benefits across multiple dimensions of school operations and student support services. The funding has enabled schools to maintain and expand their transportation programs, including the addition of new routes and buses serving students from diverse geographic areas—some traveling as far as 50 miles from campus. Schools utilize various transportation models, including door-to-door service, cluster stop busing, and contracted services, which have proven essential for providing access to specialized programs such as dual language instruction and college courses at partner institutions like Durham Technical Community College. This expanded transportation capacity has made charter schools more attractive enrollment options and has proven particularly crucial for students from lower socio-economic backgrounds who might otherwise face barriers to attendance.

Beyond transportation, the funding has indirectly strengthened child nutrition services, with the majority of participating schools engaged in the National School Lunch Program or Community Eligibility Provision, and many offering enhanced programming such as Second Chance Breakfast initiatives to serve student populations where 100% qualify for free and reduced lunch. The economic relief provided by dedicated transportation funding has created a ripple effect throughout school operations, allowing administrators to reallocate

resources toward critical needs including textbook and supply upgrades, enhanced safety measures, expanded student activities such as field trips and leadership programs, and additional social services—ultimately creating a more comprehensive support system that addresses both the logistical and developmental needs of charter school students.

NEXT STEPS AND RECOMMENDATIONS

The 2027 award cycle will open in fall 2026. All 2026 funding has been expended through the fall semester award.

The Office of Charter Schools (OCS) respectfully requests consideration of the following recommendations:

1. Consider increasing funding for the program from \$2.5 million to \$5 million. As reported above, although the legislation allows for schools to receive up to 65% of eligible expenses, the final award amount is substantially lower than 65% because the total amount of eligible expenses far exceeds the total amount of state funding available. Although \$5 million would not cover the total cost of eligible expenses, it would lessen the burden on charter schools who continue to provide this critical service in spite of rising costs.
2. Consider providing an annual transportation grant to charter schools who operate summer programming in the amount of \$2.5 million. A majority of grant applicants share how they could expand transportation during the summer with additional funds. This would allow them to reach students who need additional support or who would benefit from programs that challenge them to achieve at higher levels.
