## REPORTING REQUIREMENT

The Board shall require an annual census of all children with disabilities residing in the State, subdivided for "identified" and "suspected" children with disabilities, to be taken in each school year. Suspected children are those in the formal process of being evaluated or identified as children with disabilities. The census shall be conducted annually and shall be completed by October 15, submitted to the Governor and General Assembly, and made available to the public by January 15 annually. The census submitted to the General Assembly may be a copy of any information or report submitted to the federal government as part of compliance with the Individuals with Disabilities Education Act pursuant to 20 U.S.C. § 1418.

### Annual Child Find and Special Education Census

This report provides an unduplicated count of all children ages three through 21 actively tracked as "identified" and "suspected" children with disabilities in the Every Child Accountability and Tracking System (ECATS), the state's web-based application used to manage and report data for students receiving Exceptional Children (EC) services. The data provided distinguishes between students navigating the initial referral process through placement during the reporting period of July 1, 2024 through June 30, 2025 (Child Find census) and students with active Individualized Education Programs (IEPs) during the reporting period of December 2, 2024 through December 1, 2025 (Special Education census).

### Annual Special Education Census by State

The federal reporting period for the child count data provided below was December 2, 2024 through December 1, 2025. The target population includes children ages 3 through 21. The data collection source was the finalized submission of the child count federal reporting data through ECATS. To protect student privacy, North Carolina suppresses information if a data point contains fewer than 10 students. Suppressed data is indicated with an asterisk (\*). Companion masking may be used to protect privacy.
